

## **BMW Grounds Day**

On Friday 18<sup>th</sup> May a group of twenty volunteers from BMW Finance gave up their day in the office to help us with some grounds projects and they brought along some of their special cars and bikes!

The team of willing and hard-working volunteers participated in a range of jobs and thanks to their hard work we now have a tidy and smart playground and woodland. On the top playground they painted the stage, picnic benches and created a flower boarder for our jubilee art piece.

They began the day with a special assembly and challenged the children to design a car for the future!

The children really enjoyed learning about the electric cars and were shown how they work.
